Dear Sir

You no doubt often receive letters from strangers and as I proceed you will define my object in addressing you. I for some time past have had quite a desire to be a missionary. I understand you have the oversight of a part of the Home Mission field.

I have been engaged in teaching public school for a number of years. I would like to be a teacher among the Indians

[illegible] a Practical Illustration
[illegible] New Mexico from this Co.
Also occasionally [illegible] from
our County Papers.

We speak of a Mr Ely and
family who need an assistant
but do not know where
they are.

This signs himself J. M. Shields
and heads his writing
Jemez Mission New Mexico

I have my preference for some
place near this as I hear
of the ladies from the north
of this Co, talk of going there

I would like to have a share
in this great work for the
Master not but we can do
something altho large but I
still fine this longing desire
to be in possession

I have been very much interested in Women's Work in the church.
In this work originated the desire to go and tell others of the Precious Saviour.

I hardly know what to say as recommending myself would of course be useless.
I believe I could learn the Indian language as I comprehend easily.
I have asked for guidance made this a matter of prayer & do not [illegible] but of course if it is not [illegible] place would be safe for a lone woman to go.
In our Presbytery I do not hear [illegible] any call to the Heathen all is [illegible]

Dear Mrs Haines

I will try to tell you
something of ~~the~~ where we
are and what we are doing
No doubt some one has
written of our journey we
met a cordial reception at
Salt Lake city, a good rush
is going on there which
time alone will reveal
3 ladies and myself came
to Mount Pleasant Miss Rea
went to Ephraim, Miss Young
to Spring city and Miss Farrend
to Manti I was to go to Richfield
but on second thoughts it was decided
best to stay at Maroni

this town has over ~~200~~
inhabitants is 1½ miles from
a graded railroad (from
Nebraska to Wales) Mr McMillen
is securing a house and I
have some dollars promised
with a good lookout for
more I am staying for the
present with a family of
very respectable Swedes who
were induced to leave
Sweden by a Mormon Mission
but who have no belief in Mormonism
whatever have a bright interesting
children
who have been going to Mormon
school but will attend mine
as there has never been any
but Mormon schools here and
they are glad to have any [illegible]
I think the Home Mission Board
is doing a good work sending
teachers the older portion of
the community are entrenched
in their faith they would be
hard to convince but the
children many of them seem
willing for anything better
the schools I have been in show
not only a desire to learn
but capability

There is one part of this
work which seems to me
to fall rather heavy on
Mr McMillen that is getting
the teachers to their places and
seeing to furniture and so on

present with a family of
very respectable Swedes who
were anxious to learn
Swedish by a Mormon Missionary
but who have no belief in Mormonism
altogether have a bright interesting
children who have been going to Mormon
school but will attend ours
as there has never been any
Mormon school here and
they are paid to keep them
I think the Home Missionary Board
is doing a good work sending
teachers the older portion of
the community are prejudiced
in the faith they would be
hard to convince but the
children are ready & I am sure
will long for our Sunday letter
the school I have been doing
is not only a desire to learn
but a pastime

There is one part of this
work which seems to me
to fall rather heavy on
Mr McMullen that is getting
the teachers to their places and
seeing to furniture and so on
He needs some extra funds
but it is not for me to say
how this could be arranged
my house will need repairs and
we will perhaps have to pay
some rent on it
The expense seems heavy as
boarding is $4.00 per week but
I think many of us will learn
economy when we get our
house to rights

as regards Mr McMillen he
is the right man in the right
place full of energy and has
school at Mount Pleasant. Hums
that he is well fitted to
superintend Indian affairs
I am pleading for humanities
his knowledge
as regards the teachers
the most of them are I
think well suited to enter
on their work & correct Christian
women and we would ask
the prayers of Christian people
on our behalf for the reformation
of Utah and the establishing of
schools of a purer higher type
than those we have here.
If you should write as
one send your letter in
care of Rev D J McMillen
Mount Pleasant
Utah

I wish to hear from you
I expect to write to the
Committee of Home Missions in
Kittanning Presbytery soon
but will not ask them about
this as I think it will be
time enough when we think
of building a school room
or chapel
May the Great Shepherd
watch over us and protect
us from all harm and
may we be the means of
doing much good through
the name of the holy child
Jesus

Dear Mrs Haines

I wrote to you but really cannot tell what I did write. My object in writing to you was to keep you posted. O how much I wish some of you could come here and see the ignorance and superstition which surrounds these unfortunate people. Brought here from Sweden Denmark and England, [illegible] nothing. And from the Mormon church the next thing they must not do anything to displease these head men as many of them are afraid to send to school

I feel surprised that
Sir Mc Mullen would send
for so many teachers and not
one person for them instead of
them one poor house rent to
pay anything to fund for
beginning I see so much Of
course if a person were elected
I would not be so bad
My trip cost me about $74
I tried to be saving so I
could but I came so far
I thought I would ask if you
would let me have the other
$26 to pay expenses fuel &
that to for school purposes
more is as stunning as any
of the other places 4 or 5 men
are my enemies for a schoolhouse
But I will not deny
any thing about that at
present these men are
not able to build but deny

they will help
I think I shall have
one 20 scholars this winter
or perhaps more
The work is ordered owing
to the people not being allowed
to have the freedom of speech
that is if they should want
to send to Gentile School they
are afraid of offending the leaders
& the Mormon church

all we can do is to make a
start something to compete
with this terrible doctrin
which has so taken hold
of the people that nothing,
but divine power entered into
can ever remove this dark blot
from off our land
Since Missionaries are coming the
people are taking more interest
in Gen & would then we have to
do more

& Bro. D. J. Irwin, both of Kittanning Bro. and Bro. W. B. Carr of Blairsville Bro. were present & made short addresses. The Women of the Bro. also were represented: Mrs. Rev. D. J. Irwin & Mrs. Dr. McMullen, both enthusiastic Missionary women in the Bro. were present & read excellent papers.

There was a very respectable attendance for a Country Ch. & Convention as it did in a very busy season for Country people. The Ladies had the pulpit & front part of the Ch. beautifully decorated with plants & flowers.

Every one seemed very much interested in the Exercises & pronounced the meeting a success. As soon as I hear from all the Chs. I will send you a tabulated report. Yours in Christian work

Mrs. E. E. H. Haines,

Dear Madam:—

I ought to have written you some time ago. but have been so very busy. had no time to devote to my Correspondence —

I sent one of the Circulars which you sent me, along with my own to each of the Churches in the Pres. Eighteen of the Churches have already pledged part of Special Objects. I will give what they of Miss W. McMullen, any definite amount. there are only three there my own — pledged amounts. Three Dollars. I have no doubt — Miss

I have heard from Churches, some of them themselves to the Sup part of Special Objects, Others say they can to the Support but do not specify any definite amount. Thus far there Churches — One of pledged to definite aggregate Seventy

McMullen will be supported by our
Pres. but possibly not this year. The
There is some opposition in some
of our Churches to paying to the sup-
port of any particular person.
For a few years the Societies in this Pres.
supported a Lady in the For. field, (I do
not wish to mention the name) who I very
much fear was not worthy their sup-
port, or at least a great many thought
so. And you know, perhaps, that many,
very many, are glad of any Excuse for
not giving to the benevolent work of
the Ch. & so some of our Societies
Contributed very little in proportion
to what they ought to have done —
I think, however, Enough will enter into
the present arrangement to support
him. A number of the pastors, & some
of the Societies whom the Churches are
vacant have written me encouraging
replies — I have hoped from the

first that the effort might increase
the interest in Home Missions.
The Ladies in our Prs. have done
well for For. Missions, but I do not
think they have been doing enough for
Home Missions.
So I presume the money is to be sent to
Rev. Boyd designated "For the support of
Miss McMullen". Is that correct?
I hope Miss M. may prove worthy of support, & render satisfaction to the Board
as well as receive the approval of the
great Head of the Ch.
I tried to make as much of the occasion
of her departure as possible in increasing the interest in Missions.
I had a "Farewell Meeting" appointed
in the Ch., invited the neighbouring ministers, & though some of the brethren
could not be with us. Bro. Franklin Orr,

Miss McMullen was trained up

get cured to this date but can certainly
speak in the highest terms of Dr Pierce

of his Golden Medical Discovery and feel
no fear in saying that if people will use
a little good common sense as well as I
have in taking it.
I am not afraid to compare my hands, my

I have been spending the Sabbath trying to instruct the unlearned and ignorant in the way that leads to eternal life, and this morning I feel more forgiving to those whom I feel have wronged me it [illegible] all right for me to [illegible] the letter [illegible] "you [illegible] [illegible] ago [illegible] me to [illegible] [illegible] about [illegible]" so if I write to you [illegible] trouble you may know the [illegible] [illegible] [illegible] mother would be very much grieved should she get a letter such as I wrote to you and then [illegible] and infirm I would not dare tell of this trouble ask [illegible] how we here [illegible] keep ourselves and all [illegible] as if [illegible] [illegible].

My school is increasing in numbers slowly. The family where I have my room "one part of their house" are [illegible] and I am so glad they are Mormons, I like my [illegible] think I have some of the nicest girls in my school and they [illegible] they like me.

My Sabbath afternoon meetings seem strange even to me. Men and women come to listen. The Bible is a sealed book to the majority of the people here. Yesterday the Bishop's son came to hear me. The Bishop is a native of New Jersey they have only once

have all the comforts of life and even the
luxuries in a great measure. As said
he makes some money out of his office.
He gets up and speaks of the Bishops court —
with considerable emphasis

I got the note calling for Do have already got a few books and clothes for some of my scholars who are very poor and some things for my school room I am getting cool and need fuel for the schoolroom

Do you ever see Mr. Lee

But will tell you how I spent the money.~

I write this letter as I would have it seems hard that they threaten to turn them out of the church threaten to give them no work these things are very much against us May friends tell me that the opposition is lessening the people do seem to have more confidence than at first it seems like "Saints"

I am getting some more Gospel Song Books but will keep them on my School room I can give them out very well they are not all honest and even all the "Apostates" I shall try to spend the money to the best advantage I can will buy what I think seems most needed I get some School papers from the east and Mr Mc Mullen finances and has given me some the people here like papers I am a little reading here but the D. News they do not allow there people to take the Salt Lake Tribune Life of Brigham Life of the women of Mormondom Life of Joseph Smith and the Book of Doctrine and Covenant and Book of Mormon they do not call it the Bible Some call the Bible and the Bible one does not

am resting up to day
I believe I have not written

like to know

Mr Sorensen is quite a help on the Mission work as he can talk to the Danes and Swedes in their own language. He helps me in the S. School and can sing. Later. Now I can't think we could get a chapel I have written to Mrs. J. Evans she replied that upon had written to her on the same subject & will write again I want to send the money and probably can. The lot is purchased and the deed is in my name at Ellsworth Nebr

I think we will always have
I know we have changed the

The people are getting more
confidence in me and
those who are not very good

[illegible] I then will go
I have my girls to do

me sing and I need to
Sew Shoes from the [illegible]
Do you know of any people
who could give me some
yarn and I will do
fancy work I have
spent considerable on this
way and I hope some one
will be kind enough to send
us a supply

I do not wish to intrude myself on any society or be employed if elsewhere do not want me I think I understand the doctrine of the Presbyterian church and do not advocate anything else I do not advocate anything (and then wants for the Board of Home Mission of the Presbyterian Church) if I did I would join the Baptists (or some other such thing) Bro Haines I believe you to be a good brother and I would like to see you on Utah see our fields that we have to contend with I do not expect to teach all my lifetime I am sure but may always live free and hope to have the good
